NUMBER 161.

### A THOUSAND.

Awful Destruction Wrought By a Cyclone.

Terrific Hurricane Passes Through St. Louis.

Fearful Loss of Life and Property:

Nearly a Thousand People Killed.

The Casualities May Reach Even More When the Full Particulars Are Known.

Scarcely a Building in the City But What Was More or Less Damaged.

The Wind Reached a Velocity of Eighty Miles an Hour.

Seven Steamers Sunk and All on Board Drowned.

The Loss of Life in This Way Alone Will Reach Into the Hundreds.

A Number of Small Towns in the Vicinity of St. Louis Also Completely Wiped Out of Existence.

Communication Cut Off and There is No Telling the Extent of the Disaster.

St. Louis, May 28 .- Death and destruction reigns supreme in St. Louis and vicinity, as a result of the most terrible storm that ever visited this section of the country, which struck this place yesterday evening. So widespread is the destruction in both St. | the number drowned in the Mississippi Louis and East St. Louis that it is impossible to even estimate the amount of damage and loss of life. Buildings of every description are in ruins, and as a result hundreds of people are reported dead and injured, but until order is restored it will be impossible to make definite statement.

The cyclone broke at 15 minutes after 5 o'clock, coming directly from the west, destroying first in the city proper, then crossing the Mississippi to East St Louis, and there, after raging for half an hour, disappearing in the direction

There was little warning for the helpless people in the streets, the thousands on their way home from work, or the inmates of the great mercantile establishments of the city who had not yet left their posts of duty.

The wind had soon gained a velocity of 80 miles an hour, driving the rain before it and tearing loose signs, cornices, chimneys and everything in its way. Many buildings of every description

were demolished and others set on fire by lightning and crossed wires. The fire department responded to 14 alarms. The streets were full of people going Only Eleven Men Agreed on to home from work and a panic ensued as soon as the storm broke, men were picked up and hurled against the buildings, horses and carriages were sent flying here and there, and falling wires full of the deadly fluid added to the horror of the scene. Suddenly the wind veered around to the west and completed the destruction. It is asserted by some of those who have traversed the downtown part of the city that there are but few buildings in St. Louis that have not suffered in some way from the storm.

The city bears the appearance of having been shelled by an enemy. In some places structures have been entirely destroyed, while in others high, jagged walls stand, a constant menace to passersby.

There must be a great number of people imprisoned in the destroyed buildings, who can not be got out for hours, although thousands of citizens uties Tuesday afternoon. Out of 47 have offered their aid to the police des talesmen summoned 47 answered to have offered their aid to the police department to help the work of rescue.

Every hospital in the city is filled with victims, and there is a lack of nurses, physicians and medicines, but as soon as the people get their wits about them again the work of alleviating the suffering of the injured will be proceeded with in a systematic manner.

One thing that hinders the work of taking out the dead and rescuing the injured is the fact that every electric light wire and telephone wire is down. This prevents communication between the various parts of the city, and the town being in absolute darkness all night the work of rescue went on with agonizing slowness.

To add to the dismal situation, the rain which fell shortly after the tornado passed, began again at 7:30 o'clock and came down in torrents all night.

It is impossible to get reports from the police stations, where many of the dead and injured have been taken, and consequently all statements in regard to the dead and wounded up to the present time are the merest conjectures, but M. R. Moran, a grocer at Bellevue there is no doubt that the loss of life is greater than anything the country has known since the disaster at Johnstown.

Seven steamers lying at wharfboats on this and East St. Louis side of the river have been sunk with all on board. The magnificent steamer Grand Republic was sunk with all on board.

The steamer D. H. Pike, with 30 passengers on board, bound up the river for Peoria, was blown bottom side up.

The steamer Conger was blown nearly across the river and sank at a point opposite Carondelet, 14 miles below.

The steamer Dauphin, a pleasure boat, containing 20 women passengers and a crew of six men on board, was blown against the middle pier of the Eads bridge and broken in two. In some miraculous manner, the women and two of the crew managed to cling to the stone work of the pier and were afterward rescued.

The steamer Libbie Conger of the Diamond Jo line with Captain Seaman, his wife and a crew of six men, was sunk in the middle of the river.

Apart from the number of lives lost here and on the east side of the river, will aggregate hundreds. Excursion steamers lying at the levee and those running up and down the river were sunk almost immediately, those on board having absolutely no opportunity

It is evident that the tornado pursued a track of many miles in length, as reports from various railroad stations show that nothing has been received from any point west of here as far as Moberly. Scattered bits of information show that between Moberly and this city various small towns have been wiped out and many persons killed in

The only telegraphic advice had here of the origin of the storm is from Milan, where late in the afternoon the dark, funnel-shaped cloud was seen, which descended a little later upon this city. At Milan, which is in Sullivan county, no damage was done, but between it and this city a dozen small towns were destroyed, and about which no information can be secured.

Venice and Namioki, villages just outside of St. Louis, were totally destroyed and a great loss of life is reported from them, but it will be some time and was excused. before positive information as to the Jackson trial and thought both of election by only two votes. loss and death can be secured.

### NO JURY YET SECURED

Try Alonzo Walling.

THESE SUBJECT TO CHALLENGE.

Nearly Every Talesman Seeks to Escape Jury Duty on Some Pretext or Other. Interest in the Case Seems to Be on the Rapid Decline - Only a Small Attendance in the Courtroom.

CINCINNATI, May 28 .- The trial of Alonzo Walling for the murder of Pearl Bryan entered upon its second day in the Campbell county courthouse at Newport Wednesday morning. There was no overwhelming crowd, no excitement, and very little to interest. Walling handcuffed to Sheriff Plummer was conducted from the jail to the courthouse without incident.

Not five persons were in the courthouse corridors when the prisoner passed through, and over half the seats in the courtroom were unoccupied.

Judge Helm at once ordered the sheriff to call the roll of the talesmen se-cured by Sheriff Flummer and his deptheir names, all responding to the summons. There is a genuine and widespreading revolt against serving on the jury. Eight of the talesman were excused by Judge Helm on account of sickness in their families or personal ailments. These were the only excuses taken at all and nearly a score attempted to escape.

Walling was brought into court at 10 o'clock and took his usual seat beside

Jailer Bitzer. John Seibert and Charles Dehnert were the first two talesmen called to fill the two vacancies.

John Seibert said in plain words that he thought Walling guilty and no amount of evidence could change his opinion. He was excused. Charles Dehnert had made up his mind and said he could not render a fair and im-

partial verdict. He was also excused.
Ulrich Zeigler and Adam Audrea
were then called. Zeigler thought
Walling as bad as Jackson and had made up his mind and nothing could change it. He was excused. Audrea said he could understand the English language, but did not know what was meant when spoken to. He was very dense and was excused.

John Ernesthoff and M. R. Moran were then called. Ernesthoff when asked if he could render a fair and impartial verdict responded very emphatically "No!" He was so positive that he was then and there excused.

said he had an opinion, but he thought he could render a fair and impartial verdict. Colonel Washington questioned him severely, but he took his seat, making the 11th man.

Christian Lang had made up his mind that Walling was guilty and was excused. J. C. Erpenbeck had made up his

mind and was excused. Charles Pfefer was opposed to capital punishment. He was excused.

Charles Rushman had made up his mind that Walling was guilty. He was excused.

Daniel Weber was opposed to capital punishment and went out smiling. Ferd Fulner had made up his mind that Walling is guilty and could not render a fair verdict. He was excused. Fred a Deitz, a cigar packer of Dayton, said he had no opinion, although he had read the newspapers. He took his seat, filling the jury box.

Judge Helm then asked the commonwealth if they wished to use their two remaining challenges. Colonel Lockhart said the commonwealth was satis-

Colonel Washington for the defense then for the first time exercised his challenge privileges. He challenged Fred A. Deitz, John Lange and Benjamin Hehman. This left nine jurors ac-

James A. Collis, J. F. Brafford and Fred Brumbach were then called to fill the vacancies

James A. Collis said he had read little of the case and had no opinion at all He thought he could render a fair verdict. He took his seat. Brafford and Brumbach said they had made up their minds and could not render a fair verdict, and they were excused.

John T. Hoffman and Frank J. Lotz were then called. Hoffman had an opinion that Walling was guilty and had made up his mind. He was excused. Lotz was opposed to capital punishment and got off on that score. Joseph Koehler and Peter Boehmer were then called. Koehler had his mind made up and could not, he said render a fair verdict. Boehmer said the

same thing and got off also. E. M. De Rose, a Cincinnati machinist living at Bellevue, said he had no particular opinion and was sure he could render a fair and impartial verdict. He kept his seat.

Joseph Geislin, John J. Devoto and Conrad Simmug were then called in turn and each in turn were strong in their statements that they had made up their minds and all were excused.

Charles Jungling was excused on the grounds of ill health. H. F. Allen was then called, but he said he had made up his mind and was

excused. John Mauck when called said he had his mind made up that Walling was guilty. He was excused. John F. Wall was then called, but he

did not believe in capital punishment John Bucker said he had listened to Jackson and Walling guilty. He was

Philip Bastian, when called, said point blank that he was sure Walling was guilty, and was therefore excused. Louis Yotze was excused on account of ignorance of the English language. Joseph Whalen had an opinion which could not be changed. He was ex-

Philip Blesch, an old man, was excused on account of his old age.

Frank Leisering said the same thing and he followed his predecessor out of

This exhausted the venire. Out of the whole venire summoned Wednesday morning only five jurymen were secured. There is yet one vacancy on the jury, and both the prosecution and defense have challenges reserved.

The venire having been exhausted, court adjourned for the day.

#### SIX PEOPLE SLAIN.

A California Household Wiped Out of Existence by a Human Fiend.

SAN JOSE, Cal., May 28.—Colonel R. P. McGlincy and wife, their daughter. Mrs. James Dunham, James Wells, a son of Mrs. McGlincy, a hired woman, Minnie Scherle, and a hired man, James Briscoe, were killed at Campbell by James Dunham, a son-in-law of Colonel McGlincy, who made his escape.

About midnight a neighbor named Page heard the report of shots in the direction of the McGlincy home. Almost immediately thereafter there came the sound of galloping hoofs on the county road. Hurriedly dressing, Page proceeded to the home of the Mc-Glincys and was horrified to find the body of Mrs. McGlincy lying in an outhouse in a pool of blood. Entering the house he found the bodies of James Wells, who had been shot; Mrs. Mc-Glincy and her daughter, who had been stabbed to death by the assassin, and the hired man and girl who had been hacked to death with a hatchet. The interior of the rooms where the bodies of the victims lay was bespattered with blood and there was every evidence to show that the dead had made a desperate struggle for their lives. Page, finding that all were beyond help, notified the authorities.

One of the officers who returned to the city from the scene said: "The scene at the McGlincy home is one fearful almost beyond the powers of description. In the reception room was found the body of Wells. Evidently a terrible struggle had taken place be-tween Wells and the assassin. Wells was shot two or three times. In the reception room adjoining no bodies were found, but the furniture was literally smashed into fragments showing that a fearful fight had taken place there. Adjoining the diningroom was the apartment occupied by Mrs. McGlincy. There she was found literally slashed to pieces with a hatchet.

"Blood was everywhere and, as in the room of Wells, there was evidence of a terrible struggle having taken place between the poor woman and her fiendish son-in-law, The other victims were found in other apartments.

The last seen of Dunham he was riding rapidly toward San Jose on horseback. Family troubles are said to have

caused the murder. The only being in the house who escaped alive was a baby one month old. the child of Mrs. Dunham and the al-

leged murderer. Colonel McGliney was one of California's commissioners to the world's fair at Chicago.

METHODIST CONSTITUTION.

Referred to a Commission to Report Four Years Hence.

CLEVELAND, May 28.—A surprise was sprung upon the M. E. general conference yesterday, when a motion was made and carried to refer the report of the committee on constitution to a commission to report four years hence. This report has been under discussion for three days and had aroused much bitterness. The reason for yesterday's action is believed to be a desire for a constitution which will depart more from old lines than did the report of the committee. There is a feeling that the laymen should be given more equal representation, and it is hoped that may be granted in the constitution which the commission will prepare.

The bishops have selected their places of residence as follows: Mallalieu, from Buffalo to Boston; Fowler, from Minneapolis to Buffalo; Fitzgerald, from New Orleans to St. Louis; Joyce, from Chattanooga to Minneapolis; Newman, from Omaha to San Francisco; Goodsell, from San Francisco to Chattanooga; McCabe, to Fort Worth, Tex.; Cranston, to Portland, Ore. Foss remains in Philadelphia, Merrill in Chicago, Andrews in New York, Ninde in Detroit, Waldren in Cincinnati, Warren in Denver, Hurst in Washington and Vincent in Topeka. New Orleans and Omaha, by the new arrangement, are

left without bishops. Bishop Newman has the choice of either San Francisco or Los Angeles and there will probably be a warm contest between these cities as to which shall be the place of episcopal residence. The bishop may, however, alternate between the two cities. Bishop McCabe has the choice of either New Orleans or Fort Worth, Tex. He has practically decided in favor of the latter on account of its better facilities for reaching the north, where he will have a considerable amount of work to do during the next two years in finishing uncompleted missionary business.

BATON ROUGE, La., May 28 .- The vote for United States senator yesterday resulted as follows: Denegre, 65; Blanchard, 31; Price, 13; McEnery, 21; Blackman, 2; Hall, 1. Denegre failed

### ONE HUNDRED LIVES

Victoria Street Car Disaster Growing in Extent.

SIXTY-TWO BODIES RECOVERED.

It Is Believed That From Twenty-Five to Thirty More Bodies Are Still in the River-The Search For the Victims Being Kept Up, but It Will Be Several Days Before All Are Recovered.

VICTORIA, B. C., May 28.—The search for victims of Tuesday's streetcar horror is still being kept up and 62 bodies have been rescued from the water. Estimates made by people there place the number remaining in the water all the way from 75 to 100. It will probably be sometime before all are taken out and probably some will never be found.

While many Victorians were on the fatal car, the majority were visitors and the work of identification was consequently difficult. Fifty-seven bodies were identified. There are others whose names could not be ascertained and still more undoubtedly whose bodies have not yet been recovered from the

Twenty persons known to have been on the bridge at the time of the accident are missing and it is supposed they have perished. The car register shows 90 fares and it is probable that over 125 people were on board.

The people are very indignant over the accident, and same action will be taken right away. In every survey that has been made of the bridge in the last three years it has been condemned. The car that went down is an extremely large and heavy one and has not been allowed to run for a year, as it was considered too heavy for the bridge.

THE MINING SITUATION DISTURBED. The Operators and Miners Fail to Agree on Machine Labor.

SULLIVAN, Ind., May 28.—Negotiations having failed between operators and miners relative to the price to be paid for machine work, the situation being now the same as on the 1st of May, at which time the operators fixed the price at 55 cents and the miners demanded 65 cents. A circular has been issued, summing up the situation as

"The situation remains the same as the last 10 days. Alum Cave mines have been running and are still at a basis not above 55 cents. Old Pittsburg mines are not running. The Star City mines ran for a short time at a basis below 55 cents, but for some reason the men quit work. The mines at Dugger, which paid 60 cents from the 1st of May, are still running, although I understand the demand for coal is so light that they are running only part time. Enrich's mines on the Vandalia are running at 60 cents. These are all the mines that are running and is a true statement of the condition under which they are operating.

Yesterday there was trouble at Star City, the striking miners compelling a man who had started a machine, and was unwilling to join the union, to abandon his work and leave the district. Throughout the district the situation is admitted to be serious, and the sheriff of this county is taking precautions against trouble.

NO END IN VIEW.

Indiana Republican Central Committee Are in a Deadlock.

Indianapolis, May 28 .- The Republican state central committee has got into a deadlock. All of the 13 members of the committee are here with the exception of Mr. Wood of the Twelfth district, who is represented by a proxy. The meeting was called three days ago by members of the committee who are opposed to Chairman Gowdy.

At 2 o'clock the committee and executive committee met together. Mr. Morris of Fort Wayne had the proxy of Committeeman Wood. As a test vote a motion was made to exclude the executive committee. The result was 6 to 7, the proxy voting against Gowdy. The point was raised as to the power of the proxy to vote. The result was 6 to 6-a tie. Chairman Gowdy cast the deciding vote and threw out the proxy. This caused a deadlock, and all kinds of parliamentary tactics have failed to break

The candidates were admitted one at a time to give their views as to the advisability of making a change of chairman. Nearly all refused to take any side. At 8 o'clock the committee adjourned. Mr. Wood can not get here for 30 hours and Gowdy's friends say that while he may have authorized his proxy to oppose Gowdy, he will refuse to do it in person. There is no telling when the deadlock will be broken.

Newspaper Man Missing.

ELMIRA, N. Y., May 28.—Robert Emmet Hall, a well known newspaper man and poet, has been missing since Friday. His friends believe that he has committed suicide, as he has been despondent and often spoke of drowning as the best means of ending life. All efforts of the police and his friends to locate him have been fruitless. He came here from Chicago two years ago.

G. A. R. Mourning For General Fairchild. Indianapolis, May 28.—Commanderin-chief Walker of the G. A. R. has issued a general order with reference to the death of ex-Commander Lucius Fairchild of Wisconsin. The first paragraphs are eulogistic of the dead man. The last one contains an order for all officers to wear the prescribed badge of mourning for 30 days as a token of respect to his memory.

other now?

DEMOCRATS continue to show such a disposition to split up and fight each other over every great and important question that they will probably wake up ere long and find themselves kicked out of the control of the administration of the Government. They will then have plenty of time to kick and claw and scratch each other.

The free silverites put up a cry for more money. They demand plenty of it. If they will read Secretary Carlisle's late speech it may dawn upon their befuddled minds that free coinage of silver will not give them what they want. The Secretary shows that if all the mints of the country were run to their full capacity, it would take them fifteen years to turn out enough cheap dollars to take the place of the gold that would be withdrawn from circulation.

#### THE REAL QUESTION.

Extract From Secretary Carlisle's Chicago Speech.

gold, and \$413,000,000 in full legal-tender localities is reported to be fine, but as a silver, besides \$78,216,677 in subsidiary question for the people to decide is coins of both metals or adopt a monetary system which always has and always will rains have rendered the soil too wet to drive one of them out of the country. I am not here, therefore, to advocate the exclusive use of gold coin as money, or to oppose money along with gold and at a parity with ward completion. No scarcity of plants go'd; but I am here to insist that we is reported. Oats, grasses and clover shall not abandon the present legal have improved, though their condition is standard of value, expel all the gold from not yet all that could be desired. Garthe country and adopt silver monometallism, with free coinage of a nominal that potato bugs are much more numerdollar worth intrinsically only 51 or 52 ous than usual. Fruits, especially cents. I am here to insist that the peaches, promise well. But little commints of the United States, which were plaint of cut worms is made this week. constructed and are maintained and operated at the expense of all the people, shall not be used for the exclusive benefit of the owners of silver bullion under a law giving too late, however, to fully restore wheat them the right to have 51 or 52 cents' worth of and oats. The former is reported to be here Wednesday. their silver coined free of charge and s'a nped inferior except in a few-localities, and is as a dollar, and compelling you and all heading out very short. Oats, while tion, visiting her parents. others to receive it from them as a dollar.

All the mints of the United States, operated to their full capacity and doing look much better, and, with a continuno other work, could not coin into stand- ance of favorable weather, will soon atard silver dollars two-thirds of the annual tain their normal condition. Some spring production of silver in our own country; but, notwithstanding this, it is seriously is now doing very well. The condition proposed to offer free coinage to all the of corn is generally splendid and much silver in the world at a legal valuation of it has been worked. The fields are almost double its commercial value in very free of weeds and grass as a rule. the markets of the foreign countries Hemp has shown some improvement, where it is produced. The annual pro- but the fields are generally spotted and duction of silver in the world is about uneven. Tobacco setting has made \$216,000,000 at our coinage rate and the marked progress during the week and in annual capacity of our mints to coin several counties the work is almost comstandard silver dollars is only about \$40,-000,000. Last year we coined \$43,933,475 by machine this year, and the results are in gold and \$9,069,480 in silver; so that reported to be very satisfactory. There if our mints were devoted exclusively to is much scarcity of plants complained of the free coinage of standard silver dollars in the central and northern counties of the addition to our stock of metallic this section. Apples will be short, but money would be about \$15,000,000 less peaches and other fruits promise well. every year than it is now, and it would Cherries are ripe in some sections. Garnot be good money after it was coined. dens have improved since the rains, but and will remain a week or so. More than fifteen years would clapse before are not yet in the best condition. we could at this rate coin enough depreciated silver dollars to supply the place of the good was less in this section, than in other gold dollars expelled from the country, and, parts of the State, the amount was suffiin the meantime, a complete revolution cient to allay the effects of the drouth would have to be effected in our com- and to greatly improve the general outmercial relations with other mations and look for crops. A FINANCIAL report of the Stony Hol-

#### WEEKLY CROP\_REPORT.

What the Weather Bureau Says of the Outlook in Kentucky.

[For the week ending May 25.]

The weather conditions of the past week were highly favorable to all agricultural interests. For the first time since early in April general rains fell throughout the State. They came mainly in the form of local thunder storms, but so frequent were they that nearly every portion of the State was covered, and Let's kill this free silver agitation and there is hardly a report received this give the country a rest. That's what is week which dissents from the generally needed more than anything else to re- expressed opinion that the drouth has been effectually broken. There was quite a lack of uniformity in the amounts Some of the leading Democrats fear the of precipitation received by different Caicago convention will split on the portions of the State. The western money question, and result in two Presi- counties which last week were favored dential tickets. What else can be ex- with good rains, again reported even pected the way they are fighting each greater amounts, which in many places exceeded three inches. The average amount for the central, eastern and northern counties was about one and one-half inches, though many localities report much greater amounts. The temperature, though lower than that of last week, ranged from two to five degrees in excess of the normal daily. The amount of sunshine received varied in different parts of the State, but the average was probably slightly less than the normal. The general effect of the conditions described was favorable to all crops, and

Western Kentucky.-This section of the State was visited by very heavy rains during the week. In many cases they were sufficient in amount to flood the lowlands, and considerable damage from washing out of crops is reported in Union, Marshall, Muhlenburg and Hart counties. So heavy was the downpour that even crops on the uplands were damaged to a considerable extent by being beaten down and washed out. These injurious Shall We Have Silver Monometalism? influences were, however, confined to comparatively small areas, and the general state of crops is much more encouraging than for some time past. Wheat weedy for the reason that the heavy be worked.

#### PLAY BALL.

#### That's What the New Maysville Team Will Do This Afternoon - Opening Game.

At 3 o'clock this afternoon, the weather permitting, the initial game of the season at the local base ball park will be called. The new Maysville team will have for their opponents the Pennsylvanias, a strong nine from the Queen City. The visitors have an unbroken record of victories, and the Maysvilles will try their best to down them. Too much should not be expected of the locals, as they have had very little practice in team work. However, the boys are most all in good trim, and are confident of winning. Hiberger and Kellner will be in the points for Maysville. Hiberger is one of the most promising young twirlers in the business, and the team that downs him has to be a good one. Kellner ranks high as a catcher.

The locals will line u	ip as follows:
Pitcher	
Catcher	Kellner
First base	Lucas
Second base	Gray
Short	Lauterbach
Third base	Van Winkle
Left field	Cox
Center field	
Right field	Curle
	_

Curle arrived last night.

Admission 25 cents; ladies 15 cents. The Pennsas bring pitchers Slade, Lever and Whalen.

A big crowd is expected on Decoration Day, (Saturday), that being a national holiday.

The teams play to-day, to-morrow and Saturday, and then the Maysvilles go to Knoxville.

give the team a big send-off. The boys afternoon at 4 o'clock. will feel more like playing if encouraged by a big crowd.

Sammy Lever seems to be very much like a flea. When you think you've got him, you haven't. Maybe the locals won't do their level best to dose him out a heavy defeat. He has treated them shabbily. They had his promise to come here Monday and play with the team, but he went back on his word, and is coming up to go in against them.

#### River News.

HOUSE AND SENATE.

But Very Little Accomplished in Either Branch of Congress.

WASHINGTON, May 28.-The house spent almost the entire day discussing the senate amendment to the general deficiency bill, appropriating \$1,027,000 for the payment of about 700 French spoliation claims, \$548,000 for 325 war claims found to be due under the Bowman act, \$174,000 for the payment of what is known as the Chauteau claim for the construction of an ironclad steam battery in 1864, and about \$10,-000 for Indian supplies furnished in 1873 and 1874.

Chairman Cannon of the appropriations' committee seconded by Mr. Sayers, led the fight against the payment of these claims which they charged had been lumped together into one amendment in order to command enough strength to secure passage. Messrs. Grosvenor (Rep., O.), Mahon (Rep., Pa.), Adams (Rep., Pa.) and Richardson (Dem., Tenn.) advocated the claims which they contended had been found by the court of appeals to be equitable and just. The vote was close, but the friends of the claims carried the day-

The conference report on the sundry civil bill, which left but \$1,086,000 still in dispute, was presented and was still

pending when the house adjourned.
Mr. Kem (Pop., Neb.), who has been objecting to all requests for unanimous consent, was forced in order to preserve his record to object to a resolution to direct the secretary of the treasury to resume the issuance of patents to set-tlers on the Union Pacific, in which 5,000 of his constituents are interested.

In the Senate.

Washington, May 28 .- The senate defeated the proposition to increase the beer tax 75 cents per barrel, by the vote of 34 to 27. The vote was taken as soon as the filled cheese bill was taken up, the beer tax proposition being submitted as an amendment. With the amendment disposed of the cheese bill was further debated, but not disposed

ginia speaking for, and Mr. Elkins of West Virginia against the bill. Mr. Elkins' remarks were punctuated by sharp and amusing colloquies with Mr. Butler and Mr. Perkins. The speech of Mr. Daniel was notable as an exposi
Goshen. The mob, seeing that their control of the control tion of the free silver attitude of today.

DEATH TO THE FISH.

Drainage in the Oil Regions Polluting the Creeks and Rivers.

ANDERSON, Ind., May 28 .- One of the four United States fish commission cars was here yesterday with 60,000 trout, but Captain Pierce, who is in White river or other rivers in Indiana. He had instructions to stock streams passing Elkhart, Laporte, Hartford City, the waste from the numerous oil wells was detrimental to fish.

Throughout the gas belt, where the streams are used for drains from factories, and by the several important cities, the fish are growing scarce, either dying or else leaving the waters for streams unaffected. The commission is now experimenting, to ascertain what fish can live in waters where a fish famine is reported.

PROHIBITIONISTS.

Silver Men Win the First Fight in the National Convention.

PITTSBURG, May 28.—Uproarious and caustic in the extreme was the first day's session of the seventh national Prohibition convention. At least one half the time the delegates were in a bedlam of confusion and on several occasions the presiding officer had to call upon the band to play in order to quiet the disorder.

It was a fight between the broad gauge, or free silver, faction and the single issue, or gold standard, delegates from the east. The fight was precipitated a few moments after the convention was called to order and at both the morning and afternoon sessions things in general ran riot. The free silver fac-tion carried the day, however, and at 6 o'clock in the evening elected C. W. Stewart of Illinois permanent chairman over A. A. Stevens of Pennsylvania, who was backed by the gold standard delegates.

The convention was held in music hall at the exposition building and there were over 5,000 spectators in attendance. It was not as large a crowd as the leaders had expected, but there were enough people to fill the big hall, and what they lacked in numbers they made up in enthusiasm.

The fight will now be over the platform. Elated with victory the free silver crowd is determined to carry through a "broad gauge" platform, while the opposition is quite as determined it shall be a single issue platform, declaring for prohibition alone. Each faction claims a majority, but from yesterday's fight it would seem that the factions are pretty evenly divided.

LYNCHING FRUSTRATED.

The Prisoner Removed From One Jail to Another For Safekeeping.

LIGONIER, Ind., May 28.-Ed Warren, charged with murdering Charles Badger, and with mortally wounding Ulysses Badger, his brother-in-law, was of.

The debate on the bond bill proceeded after 2 o'clock. Mr. Hansbrough of North Dakota and Mr. Daniel of Virginia and Mr. Ellips of taken to Goshen for safekeeping, as it was feared that he would be lynched. drum corps, threatening to lynch the prisoner.

Upon hearing of their approach Shervisit was useless, then dispersed. They swore, however, that when Warren was brought back to be tried, that they would take him out and hang him up by his feet and riddle him with bullets.

Sistersville's Second Fire. SISTERSVILLE, W. Va., May 28 .- This place was yesterday visited with a second disastrous fire within a week. The charge, said that none was intended for loss will reach \$40,000 with little or no insurance. The following are the losers: Grier & Company, druggists; McCormick & Company, shoes; J. T. Dolan, Union City, Rome City and Bedford, but while at Hartford he learned that the waste from the numerous oil wells Drs. Marsh & Litcher, office furniture; Hershberger & Company, clothiers. The origin of the fire is unknown.

Gold Keserve.

Washington, May 28 .- The treasury yesterday lost \$1,284,700 in gold coin and bars, of which \$1,250,000 was for export. This leaves the true amount of the reserve \$108,294,278.

Carlisle's Speech.

#### Gladness Comes

With a better understanding of the transient nature of the many physand N. at Fourth and Smith streets, Cincinnati. Jim's friends will be glad to learn of his promotion.

An Ex-Maysvillian Appointed And ease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxa-tives or other remedies are not needed. Cincinnati, Hamilton and Dayton tracks about four miles south of the city, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with rows," yesterday. A letter was found on his person addressed to William Meyers, Polk street, Huntington, Ind.

then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction. used and gives most general satisfaction.

## Fruit,

The Fruit season of 1896 is close at hand and I have perfected arrangements with some of the largest and most successful Fruit growers of the Ohio River hills to handle their entire crop of

Strawberries, Raspberries, Blackberries, Peaches, Etc.

> This fruit is grown on the elevated lands. principally in Lewis County, by growers of long experience, and will be much superior to any grown on the low or flat lands. It will be received by express and placed on the market here on the same day it is gathered, and will be furnished to dealers and consumers in first-class condition. Special prices always given to dealers, so as to enable them to sell at same prices I sell to consumers and make fair profits.

#### My Supply of Vegetables

will also be at all times full and of very best quality, and lowest prices. A special invitation is extended country people to make my house their headquarters when in our city.
